## SUMMARY

Junior Frontend Developer with a background in Customer Service and believes anything is possible with hard work, determination and the right mindset. Focused on a strategy that revolves around communication and teamwork. Known among staff for eagerness to always help, hard-work ethic and reliable.

## TECHNICAL SKILLS

**Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap, Tailwind CSS, React**

**Backend: MySQL, MongoDB, Express, Node**

## PROJECTS

**Coinspire | [github.com/devkjoon/coinspire](https://github.com/devkjoon/coinspire) | [devkjoon.github.io/coinspire](https://devkjoon.github.io/coinspire)**

- A frontend application that allows users to live track current cryptocurrency prices to assist and aid beginners in fast-trading and accurate data for learning.
- My responsibilities were overall styling of the page, features that should be included and implementing different CSS frameworks.
- Tools/Languages: HTML, CSS, Javascript, JSON, JQuery, Tailwind CSS, CryptoCompare API and MarketAux API

**Longevity | [github.com/alexisbenavidez99/workout-tracker](https://github.com/alexisbenavidez99/workout-tracker) | [rocky-thicket-55053.herokuapp.com](https://rocky-thicket-55053.herokuapp.com)**

- A full-stack application that allows users to create a profile, curate workout plans, learn new exercises with instructional descriptions, and keep track of their past workouts.
- My responsibilities were finalizing features and layout of the application, creating file structure and connection to MySQL and Express, creating routes, adding npm packages, implementing Tailwind, creating workout history page and much more.
- Tools/Languages: Javascript, Node, bcrypt, Express, MySQL, Handlebars, Tailwind, Sequelize, and Exercises API

**Book Haven | [github.com/Nmotley92/e-commerce-site](https://github.com/Nmotley92/e-commerce-site) | [book-haven.herokuapp.com](https://book-haven.herokuapp.com)**

- A MERN stack e-commerce application that allows users to login in, purchase books through PayPal, and add them to their cart to purchase, and also includes admin login that allows the admin to edit, create or delete products and keep track of orders.
- My responsibilities were overall styling of the page, features that should be included and improving code.

- Tools/Languages: HTML, CSS, Javascript, Cloudinary, SocketIO, React, Jest, bcrypt, PayPal, PWA, Webpack, Mongoose, JWT, Node, Axios

**Portfolio** | <https://github.com/alexisbenavidez99/alexisbenavidez> |  
<https://alexisbenavidez.netlify.app/>

- A single-page portfolio application that includes an about me section where you can download my resume, a project section that showcases my recent projects, and a contact section where you can inquire about contact requests.
- My responsibilities were building the application from scratch, styling the page and implementing Javascript libraries such as Tilt.js and ScrollReveal.js.
- Tools/Languages: HTML, CSS, Javascript, Parcel, NodeJS, Bootstrap, JQuery, ScrollReveal.js, Tilt.js

## EXPERIENCE
